T. passer pas le coût d'une annonce ordinaire dans les grands journaux, à la condition que nous soyons chargés de la négociation.
Il arrive souvent qu'un brevet français est refusé à l'étranger par le motif qu'il n'est pas en usage dans ce pays. Pour éviter la perte de la découverte, nous nous sommes chargés de faire breveter nos inventions dans tous les pays où elles peuvent produire un avantage. Nous ne nous avançons donc pas en disant qu'en nous adressant à nous, nous croyons nous rendre utiles à nos lecteurs.

Système breveté POUR LA CONSERVATION DU BLE DANS LES MAGASINS D'APPROVISIONNEMENT.
Les mauvaises récoltes, qui se sont succédées pendant les deux années, ont appelé l'attention de Sa Majesté sur la nécessité de prendre des mesures pour la conservation du blé.

OUR AIM.
By founding our paper, we trust to make ourselves useful to that class of men who, being intelligent inventors, pass their life in penetrating the mysteries of nature, either contriving the means of obtaining from the time occupied in producing, or inventing some of those wonderful machines which shorten the time of our hard-worked hours.
Thought work has elevated man accord to the maxims of religion, and in the performance of his duties, it does not always occur to him who very often, in endeavoring to make his discoveries, ruin themselves with fruits of many years' privation.
Why, in our time, among so many nations, is it so rare to find men who are so ardent and whose aspirations are so high? Is it because they are so much hindered by the want of capital, or is it because they are so much hindered by the want of a free press, or is it because they are so much hindered by the want of a free market?
We have no doubt that the want of a free press, and the want of a free market, are the two principal causes of this state of things.
